

Animals of Harappan Civilisation

Indus Valley civilization dates back to 2500-1700 BCE. It is also known as the Harappan Civilization. The Harappans domesticated animals like dogs; cats; humped bull and shorthorn cattle. While we also have evidence of domestic fowl, camels, buffalo, and pigs.

Here is a table of toys depicting animals from the Harappan Civilization.

Can you spot them in the gallery and find their names in the puzzle?
